Abstract

Birds sing in different ways. Some birds are loud, others are quiet. Birds sound better in nature than in a recording.

Keywords: ecology, birds

1. Introduction

Birds are loud [@"bchydro"2008]

2. Methods

Some birds sang, others were in cages.

3. Results

Figure ?? is generated using an R chunk.

4. Discussion

Birds birds birds(200, 2008).
